

A majority of the 1st World is presently witnessing a catastrophic state of institutional failure in their primary state-sponsored Medical industries. Hospitals are being built at breakneck speeds to combat a global health crisis, but in reality, it's not actually a crisis at all, but in fact a masterfully orchestrated plan carried out by a sick Cabal of elite profiteers. Previously known as "Robber Barons," their wealth goes all the way back to Pharaoh. Over centuries, they've studied psychology, black magic and alchemy, and used their advanced occult knowledge against the common people. In a way the Healing Web is comparing the worst of Big Pharma to the best of Holistic medicine. That may seem biased at first, but as you come to understand the full history, and that Medicine is partially being employed as a tool for mass extermination, Holistic philosophy is clearly the better choice of first resort. Diet modification alone could prevent or reverse a majority of diseases, but our institutions have misled us on some of the most fundamental aspects of health & nutrition. They have lied about what is unhealthy, while at the same time, they've taken naturally healthy foods and sapped the nutrition out of them through cooking & pasteurization. Other foods have been transformed into poison by adding preservatives, and sugar. Many personal physicians may mean well, but the core of the Medical Industry is frightfully corrupt. The interaction between Government, Big Pharma, Big Ag, and Big Food constitutes a perpetual genocide we've come to accept as the norm.

Thankfully, we still have a choice. Every condition would benefit from a multifaceted approach to treatment, such as a combination of detox, diet, exercise, immune support through supplementation, and energetic & spiritual healing. A holistic approach can even include a pharmacological treatment, with ancillary natural remedies to minimize the side effects.

What is the optimal diet for human health and longevity? Many are struggling to find an answer to this question. The debate has been heavily polluted with propaganda and misinformation from every angle. Clearly the Standard American Diet that most people grew up with was the wrong answer. Excess sugar and fried food have fueled one of the greatest unacknowledged epidemics man has ever known. Ninety percent of the regular grocery store is now the "poison" section. How can we navigate our way through this toxic labyrinth?
